Summary

Hands-on trainer and engineer with 9 years in Python and machine learning, and the last 3 years focused on Generative AI. I design and deliver practical workshops on large language models (LLMs), retrieval-augmented generation (RAG), agentic AI with LangChain and LangGraph, and prompt engineering for engineering and product teams. Trained more than 1,200 engineers across 40+ cohorts, in person and online.

Experience

Lead AI Engineer and Corporate Trainer - Nimbus Analytics, Bengaluru (2021 - present)
- Built a RAG platform over 2 million internal documents (embeddings, pgvector, rerankers).
- Shipped multi-agent support assistants with LangGraph, tool calling and evaluation suites.
- Run the internal GenAI academy: 6-week LLM engineering track for 300+ developers.

Senior Data Scientist - Kaveri Fintech, Bengaluru (2017 - 2021)
- Credit-risk models in Python (scikit-learn, XGBoost); MLOps pipelines on Airflow.
- Mentored 12 junior data scientists; ran weekly Python and machine learning clinics.

Software Engineer - Deccan Systems, Chennai (2015 - 2017)
- Python back-end services and data pipelines; Django and PostgreSQL.

Workshops delivered

- Building RAG Applications with LLMs (2-day workshop), Bengaluru Python Meetup, 2024
- Agentic AI with LangGraph: tools, memory and evaluation, PyCon India, 2024
- Prompt Engineering for Developers (1-day course), IIIT Bangalore, 2023
- Intro to Generative AI for Product Managers, 4 corporate cohorts, 2023
- Python for Machine Learning bootcamp (5 days), Kaveri Fintech academy, 2020

Topics I teach

Generative AI and LLMs; RAG; AI agents (LangChain, LangGraph); prompt engineering; Python; machine learning; LLM evaluation and guardrails.

Education and certifications

B.Tech, Computer Science - National Institute of Technology Karnataka, 2015
Google Cloud Professional Machine Learning Engineer, 2022

Languages

English (fluent), Hindi (fluent), Kannada (conversational), Tamil (native)

Rates and availability

Day rate: INR 45,000 per day for corporate workshops; INR 6,000 per hour for mentoring. Available on weekdays from March 2026; two weekends a month for community events.
